## PROFILE

Disciplined, enthusiastic, highly organized, and hard-working all-rounder Technology Specialist with 5+ years of experience.

## EDUCATION

### Bachelor of Information Technology

2020 – 2024

Aptech Computer Education

Qatar

### High-School Diploma

2021

National Institute of Open Schooling

India

## EXPERIENCE

### Graphic Designer

2014 – present

Freenlance

Online, Worldwide

Create visual concepts, using computer software(s), to communicate ideas that inspire, inform, and captivate consumers and also to convey messages to the viewers in an effective and aesthetically pleasing manner. I develop the overall layout and production design for applications such as websites, logos, banners, posters, advertisements, brochures, magazines, and reports for social media and many other platforms.

- Design graphics for use on websites and social media
- Manage social media account for several clients
- Design and build websites with logos, social media campaigns, and online advertisements
- Create and edit photos and videos
- Create documents for clients using Microsoft Office products

## Social Media Manager

Freenlance

2015 – present

Online, worldwide

- Planned and automated social media presence, increasing social media engagement and website visitors by 300%
- Gained 100K+ combined social media followers
- Prepare analytics for traditional and web marketing
- Conduct research on market demands, industry trends, and customer portfolios
- Develop marketing campaigns with strong time table and budget
- Create and optimize marketing content
- Create social media strategy in further brand knowledge
- Oversee marketing campaigns
- Analyze key demographics, industry trends, and more to build plan
- Develop multi-level marketing strategy

## Data Analyst and Encoder

IMDb

2019 – present

unpaid, remotely (online)

I research, Analyze, and upload thousands of accurate data every month on IMDb. In addition, I rectify and improve existing data uploaded by other contributors on the site. I also provide user support on the IMDb community forum.

## Maximo Operator

AIM Trading & Contracting

March 2021 –

September 2021

Operate an IBM software called Maximo.

Qatar

- Monitor Road Management Center devices and applications
- Inspect survey photos and record the details in the Ashghal Maximo application and create work orders
- Carry out a service request when required
- Create daily and monthly reports of daily inspections, BOQ, and RFI in Microsoft Excel by extracting data from Maximo or by manually entering them
- Create road permits through the QDPRO system

## VOLUNTEERING

---

### FIFA Club World Cup

Spectator Services

2021

Qatar
